Course Description

This course introduces Microsoft 365, an integrated cloud platform that delivers industry-leading productivity apps along with intelligent cloud services and world-class security. You'll learn foundational knowledge on the considerations and benefits of adopting cloud services and the software as a service (SaaS) cloud model, with a specific focus on Microsoft 365 cloud service offerings. You will begin by learning about cloud fundamentals, including an overview of cloud computing. You will be introduced to Microsoft 365 and learn how Microsoft 365 solutions improve productivity, facilitate collaboration, and optimize communications. The course then analyzes how security, compliance, privacy, and trust are handled in Microsoft 365, and it concludes with a review of Microsoft 365 subscriptions, licenses, billing, and support.

Course Outline

Learning Path 1: Microsoft Azure Fundamentals: Describe cloud concepts

New to the cloud? Microsoft Azure fundamentals is a three-part series that teaches you basic cloud concepts, provides a streamlined overview of many Azure services, and guides you with hands-on exercises to deploy your very first services for free. Complete all of the learning paths in the series if you are preparing for Exam AZ-900: Microsoft Azure Fundamentals

Modules

- Describe cloud computing
- Describe the benefits of using cloud services
- Describe cloud service types

Learning Path 2: Microsoft 365 Fundamentals: Describe Microsoft 365 apps and services

Learn about how the productivity, collaboration, and endpoint management solutions through Microsoft 365 empower people and organizations to achieve more.

Modules

- What is Microsoft 365?
- Describe productivity solutions of Microsoft 365
- Describe collaboration solutions of Microsoft 365

- Describe endpoint modernization, management concepts, and deployment options in Microsoft 365
- Describe analytics capabilities of Microsoft 365

Learning Path 3: Microsoft 365 Fundamentals: Describe Microsoft 365 security and compliance capabilities

Learn about how the security, compliance, and identity solutions through Microsoft help people and organizations secure their entire digital estate, simplify compliance and reduce risk.

Modules

- Describe the function and identity types of Microsoft Entra ID
- Describe access management capabilities of Microsoft Entra
- Describe threat protection with Microsoft Defender XDR
- Describe the compliance management capabilities in Microsoft Purview
- Describe Microsoft's Service Trust portal and privacy capabilities

Learning Path 4: Microsoft 365 Fundamentals: Describe Microsoft 365 pricing, licensing, and support

Learn about how people and organizations can get the most out of their Microsoft 365 investments through pricing models, continuous support, and licensing options that are designed to meet their needs.

Modules

- Describe Microsoft 365 pricing, licensing, and billing options
- Describe support offerings for Microsoft 365 services

Audience

This course is designed for candidates looking to demonstrate a foundational-level knowledge of cloud-based solutions to facilitate productivity and collaboration onsite, at home, or a combination of both. Candidates may have knowledge of cloud-based solutions or may be new to Microsoft 365.

Prerequisites

Before attending this course, students should have:

- A basic level of familiarity with computer technology and cloud computing

What You Will Learn
