Course Description

Our COBIT 2019 training class at Interface will prepare you for the ISACA COBIT® 2019 Foundation Certification Exam. Over the years, best-practice frameworks have been developed and promoted to assist in the process of understanding, designing and implementing enterprise governance of IT (EGIT). COBIT 2019 builds on and integrates more than 25 years of development in this field, not only incorporating new insights from science but also operationalizing these insights as practice. Students are issued an exam voucher to take the exam independently online following the course. The exam is not administered during class.

This COBIT 2019 training course is taught by Interface instructor [Mark Thomas](). Mark brings over 25 years of professional experience, and his background spans leadership roles from Datacenter CIO to Management and IT Consulting. Mark has led large teams in outsourced IT arrangements, conducted PMO, Service Management and governance activities for major project teams, managed enterprise applications implementations and implemented governance processes across multiple industries.

Mark's areas of expertise include:

- Governance Solution Design, Implementation & Management
- ITIL, CobiT, MOF, ISO20000 Consulting & Training
- Executive, Team, & Client Coaching & Mentoring
- Software Testing and QA
- Project Portfolio Demand Management
- Software Selection & Implementation
- IT Strategy & Business Alignment
- Team Leadership
