

## CompTIA Certification

### NET+009 CompTIA Network+ Certification Training (Exam N10-009)

\$2,795.00

- 5 Days
- Advance Your Networking skills
- 24/7 Access to Online Labs During Class Week
- Includes authorized courseware, practice tests, and hands-on labs; access valid for 12 months
- See the course description below for additional details in regard to the eBook and labs

## Upcoming Dates

Nov 04 - Nov 08

## Course Description

Students who take this course will receive a comprehensive study material with 100% coverage of the exam objectives. This eBook includes videos and practice questions and will be valid for 12 months. Students will also have access to a remote lab environment that enables hands on practice in actual software applications. Gradable, hands-on assessments provide an accurate picture of learners' ability to perform job tasks correctly and efficiently. Lab scenarios are aligned with CompTIA exam objectives. Lab access will be valid for 12 months.

This course can benefit you in two ways. If you intend to pass the CompTIA Network+ (Exam N10-009) certification examination, this course can be a significant part of your preparation. But certification is not the only key to professional success in the field of network support. Today's job market demands individuals have demonstrable skills, and the information and activities in this course can help you build your network administration skill set so that you can confidently perform your duties in any entry-level network support technician role.

## Course Outline

- Lesson 1: Explaining Network Topologies
- Lesson 2: Supporting Cabling and Physical Installations
- Lesson 3: Configuring Interfaces and Switches
- Lesson 4: Configuring Network Addressing
- Lesson 5: Configuring Routing and Advanced Switching
- Lesson 6: Implementing Network Services
- Lesson 7: Explaining Application Services
- Lesson 8: Supporting Network Management
- Lesson 9: Explaining Network Security Concepts
- Lesson 10: Applying Network Security Features
- Lesson 11: Supporting Network Security Design
- Lesson 12: Configuring Wireless Networks
- Lesson 13: Comparing Remote Access Methods
- Lesson 14: Summarizing Cloud Concepts
- A.0 Network Sandbox

## **Audience**

This course is designed for people who are seeking to launch a career in networking and cybersecurity.

Job roles that Network+ maps to:

- Junior Network Administrator
- NOC Technician
- Systems Administrator
- Datacenter Support Technician
- Telecommunications Technician

## **Prerequisites**

Recommended certification exam experience: A minimum of 9–12 months of experience in the IT networking field.

## **What You Will Learn**

Today's competitive job market demands that individuals have demonstrable skills. The CompTIA Network+ course is designed to help build learners' network administration skills, preparing them for a wide array of career paths in IT, from network support to cybersecurity.

Upon course completion, learners will understand the core skills necessary to establish, maintain, troubleshoot, and secure networks in any environment, regardless of technology and platform.
