

Power BI

PBICRB16: Data Analysis using Power BI Desktop – Level 1 – Report Builder

Power BI for the Cloud 2-day report building training course.

\$1,100.00

- 2 Days

Upcoming Dates

Course Description

This is the first course in TLG Learning's exclusive Data Analysis using Power BI Desktop series. This course lays the foundation for Power BI Report Builders. Report Builders will learn everything they need to create highly effective stand-alone and multi-page narrative reports using data sources that are created using Power BI Desktop. This course covers the use of both the Power BI Desktop application as well as the Power BI Service.

Course Outline

Lesson 1: Introducing Power BI

- Power BI as Part of Power Apps
- What is Power BI
- Power BI Overview

Lesson 2: Understanding Power BI Data Models

- Understanding Data Terminology
- Data Normalization
- Understanding Tables & Relationships
- Diagnosing Data Models, Data Model Schemas
